

PROJECT HANDOVER

RINANZE TOKEN

Token Name: Rinanze (RIN) on BNB Smart Chain

Date of Issue: July 16, 2026

Status: All core engineering delivered and ready.

Handover Assets & Support

1. Current Asset Status (Delivered)

Token Name: Rinanze | Symbol: RIN | Decimals: 18

Live Proxy Address (Token): 0xBdf9e9B29720389EeBf9b6D95a5077341E66114c

Implementation Address: 0xe53Aceb9B0689e8e145931730e552Ee83c5831df

Admin Dashboard: rinanze-admin.vercel.app

Public Portal (Live): <https://rinanze.vercel.app/>

Total Supply: 1,000,000 RIN minted.

2. Liquidity Pool Status

Platform: PancakeSwap | Pair: RIN / BNB

Liquidity: 400 RIN + 0.004 BNB (pool value ~ \$2.60 USD)

Price: Approx. 0.00001 BNB per RIN (live on PancakeSwap)

3. Post-Handover Support

We are providing 3 days of complimentary testing, bug-fixing, and maintenance for the public portal (July 16 – July 19, 2026). This covers frontend bugs, wallet connectivity, and minor smart contract interactions.

Handover Procedures & Preparation

4. Reason for Handover & Scope Creep

The project expanded into a complex R&D endeavor regarding Trust Wallet valuation. We are forfeiting the remaining balance of NGN 90,000 as a goodwill gesture. Core engineering is complete; the Trust Wallet display requires a Tokenomist.

5. Handover Completion Procedure

Upon receiving your BNB wallet address, we will:

- Transfer full ownership of the Proxy contract to your wallet.
- Transfer the remaining 999,600 RIN to your provided address.

(400 RIN is locked permanently in the PancakeSwap liquidity pool).

6. The Way Forward

We recommend hiring a specialized Tokenomist to handle the final economic modeling and volume simulations required for wallet price displays.
